Saga of the Queen of the Sky

There is not room to tell the full story of the VS-44A here. A book has been written by Harry Pember and a very good video (“The Queen of the Sky”) has been made by TV Station WGBY in Massachusetts which tells the full story of the aircraft and of the involvement of people like Charles Blair and his wife Maureen O’Hara Blair, Dick Probert, and many, many others. The book and video may be purchased at the Sikorsky Store, and at the New England Aircraft Museum Store.

The people who steered the final course to the New England Aircraft Museum were Eugene Buckley, Tony Ravino (Chairman, VS-44A Restoration), and Harry Hleva, who with the assistance of Sikorsky Aircraft, and many volunteers from the ranks of Sikorsky and Avco-Lycoming retirees and others, restored the aircraft to the condition and placed it where it can be seen by the public of today and for many generations to come. This Edition of *Heritage* is dedicated to all these players in the VS-44A story.

Eugene Buckley

Harry Hleva

Timeline

- Nov. 4 1987:** Restoration Opening ceremonies
- Spring 1988:** Preparation. Donated materials, surplus tools and equipment gathered. Hull skin carefully peeled away.
- Winter/Spring 1989:** Hull restoration begins. Supporting structure repaired, hull reskinning begins.
- Spring 1990:** Work on wing center section. Replacement spars made and installed. Entirely reskinned. Horizontal and vertical stabilizers refurbished. Work begins on outer panels.
- 1994:** Engine restoration begins. Engines obtained from the Marines Corps Museum (1), Long Island School of Aviation (2), and New England Air Museum (1).
- 1995:** Interior work begins on flight deck and passenger areas. Most are restored to original condition from donated and purchased materials.
- Winter/Spring 1994:** Hull 98% complete. Windows and windscreen installed. Propellers restored by Hamilton Standard.
- Winter/Spring 1997:** Center wing section moved to Windsor Locks for mounting and other finishing work. Interior restoration complete. Preparations to move hull to same location.
- June 18 1997:** VS-44 Hull is transported to the museum. Center section installed. Volunteers are shuttled to the museum to continue restoration.
- Summer 1998:** The aircraft is painted in the original colors of American Export Lines and moved into its final home at the Museum.
- Nov 19, 1998:** Recommissioning ceremony held at the New England Air Museum

It took many volunteers, only a few of whom are shown, to reverse years of neglect.

They were There

**An Evening of Rememembrance
with Reeve Lindbergh and Sergei Sikorsky**

The I.I. Sikorsky Historical Archives together with American Helicopter Association International held an evening of reminiscence at the Bridgeport Holiday Inn during October 2001. Talks were featured by Reeve Lindbergh and Sergei Sikorsky. During the evening three framed copies of a new painting by Joe Keogan, celebrating the day in August 1934 when an S-42 flying boat flown by Boris Sergievsky broke eight world records, were presented to Reeve, Sergei, and The New England Air Museum. The painting depicts the aircraft passing the Stratford Point Light at the end of the record breaking flight.
